

17th Annual Sale

FOUNDATION ANGUS
ALLIANCE

FEBRUARY 17, 2024 | 12:30 | LULING, TX
THE LULING FOUNDATION FARM

WWW.FOUNDATIONANGUSALLIANCE.COM

Welcome to the 17th Annual Sale

It's that time again, and I want to welcome all our friends and customers to the 17th Annual Foundation Angus Alliance sale.

I was unable to attend last year's sale due to a popular virus that was running around. It was really tough having to sit in my house and watch the culmination of a year's worth of work go by me on a TV screen. I really missed visiting with all the good people that I have gotten to know through the Angus breed. Cattle people are the best friends that a person can have, and I am honored to be able to participate in such a noble profession.

One thing that I did learn was that I am not indispensable. In my absence, the sale went off without a hitch. It made me realize how valuable our partnership really is and how important it is to have friends that work together for a common goal. I really value the partners in our Alliance and all the other people that come together to make our offering a success.

That being said, I believe that the sale book and the cattle in it speak well for the efforts of our partnership. A customer told me the other day that he believed the quality and depth of our offering gets better every year. I took it as a compliment, but I remembered back 17 years ago that was one of the primary goals in forming our Alliance. In the Angus business today, if you are not constantly moving forward with your breeding program, then you are moving backwards. I believe and have heard leaders in the beef industry say, "The beef industry is built around the Angus breed." We want to provide our customers with the genetics that will continue to move their herds in a direction that will keep them in the forefront of the beef industry.

Thanks for looking, and we hope you can find something that will help you achieve your goals.

Sincerely,

Bodey Langford - Langford Cattle Co.
Foundation Angus Alliance Member

SALE LOCATION:

The Foundation Angus Alliance sale will be held at The Luling Foundation, Luling, Texas. The Foundation sale facilities are on the western edge of Luling, just off Hwy. 90, on Mulberry Ave.

DELIVERY:

Free delivery to central delivery points for purebred lots within 250 miles of Luling.

In the event your purchases do not qualify for free delivery, truckers will be available to transport cattle at buyer's expense, and all arrangements will be between buyer and trucker.

AREA HOTELS:

Best Western Plus Longhorn Inn - Luling, TX (830) 875-5442
(Approx. 4.5 miles from sale)

LaQuinta Inn & Suites - Luling, TX (830) 351-5320
(Approx. 4.5 miles from sale)

Zedler Guest House - Luling, TX (830) 875-5515
(Approx. 0.5 miles from sale)

Lockhart Best Western - Lockhart, TX (512) 620-0300
(Approx. 13.5 miles from sale)

Seguin Hampton Inn - (830) 379-4400

Seguin Comfort Inn - (830) 372-3990

I-10 at Hwy. 123 (Approx. 22 miles from sale)

(979) 492-2663

(817) 366-7332

(210) 867-6862

AIR TRANSPORTATION:

Austin Bergstrom International Airport

Austin, Texas

Take 183 South to Luling, TX (Approx. 1 hour)

San Antonio International Airport

San Antonio, TX

Take Interstate 10 East to Luling, TX (Approx. 1 hour)

INSPECTION OF CATTLE:

Cattle will be available for inspection beginning Friday, February 16, at the sale site. All cattle will carry lot tags corresponding to sale lot numbers in sale book.

TERMS AND CONDITIONS:

All cattle are to be settled for on sale day prior to load out. Cattle will sell under the suggested Terms and Conditions of the American Angus Association (http://www.angus.org/Pub/suggested_sale_terms.pdf). Announcements made from the sale block or supplement to the sale book take precedence over what is written in the sale book. The sale day supplement will give updated calving, breeding and pregnancy examination information.

TRUCKING:

Truckers will be available at the sale to transport cattle at buyer's expense. All shipping arrangements will be between buyer and trucker.

LIABILITY:

All persons attending the sale and related functions do so at their own risk, legal or otherwise. The owners, sale management, and hosts assume no liability for loss or damages, however so caused.

CATTLE LOADOUT:

Bulls may be loaded out at the end of the bull sale. Females will need to be loaded out following the conclusion of the sale.

SALE ORDER:

Bulls will sell first, followed by registered females. They will sell in sale book order.

INTERNET BIDDING:

If you are unable to attend the sale, bid online for free at CCI.LIVE.

If you plan to bid on CCI.LIVE, register today at www.CCI.LIVE.

AM EPDs contained in the hard copy of this sale book were current as of print date. Digital versions of this sale book can be viewed online at www.angus.org and will have EPDs updated every Friday with the exception of EPD references in footnotes and photos. Any PDF downloads from the website will contain EPDs current as of the date downloaded. References: American Angus Association®, AHIR®, AngusLink®, CAB®, Pathfinder®.

AAA selection Tools

Expected Progeny Difference (EPD), is the prediction of how future progeny of each animal are expected to perform relative to the progeny of other animals listed in the database. EPDs are expressed in units of measure for the trait, plus or minus. Interim EPDs may appear on young animals when their performance has yet to be incorporated into the American Angus Association National Cattle Evaluation (NCE) procedures. This EPD will be preceded by an “I”, and may or may not include the animal’s own performance record for a particular trait, depending on its availability, appropriate contemporary grouping, or data edits needed for NCE.

GROWTH

Calving Ease Direct (CED), is expressed as a difference in percentage of unassisted births, with a higher value indicating greater calving ease in first-calf heifers. It predicts the average difference in ease with which a sire’s calves will be born when he is bred to first-calf heifers.

Birth Weight EPD (BW), expressed in pounds, is a predictor of a sire’s ability to transmit birth weight to his progeny compared to that of other sires.

Weaning Weight EPD (WW), expressed in pounds, is a predictor of a sire’s ability to transmit weaning growth to his progeny compared to that of other sires.

Yearling Weight EPD (YW), expressed in pounds, is a predictor of a sire’s ability to transmit yearling growth to his progeny compared to that of other sires.

Yearling Height EPD (YH), is a predictor of a sire’s ability to transmit yearling height, expressed in inches, compared to that of other sires.

Scrotal Circumference EPD (SC), expressed in centimeters, is a predictor of the difference in transmitting ability for scrotal size compared to that of other sires.

MATERNAL

Calving Ease Maternal (CEM), is expressed as a difference in percentage of unassisted births with a higher value indicating greater calving ease in first-calf daughters. It predicts the average ease with which a sire’s daughters will calve as first-calf heifers when compared to daughters of other sires.

Maternal Milk EPD (Milk), is a predictor of a sire’s genetic merit for milk and mothering ability as expressed in his daughters compared to daughters of other sires. In other words, it is that part of a calf’s weaning weight attributed to milk and mothering ability.

Cow Energy Value (\$EN), expressed in dollars savings per cow per year, assesses differences in cow energy requirements as an expected dollar savings difference in daughters of sires. A larger value is more favorable when comparing two animals (more dollars saved on feed energy expenses).

Components for computing the cow \$EN savings difference include lactation energy requirements and energy costs associated with differences in mature cow size.

CARCASS

The genetic evaluation produces a single set of EPDs for carcass weight, marbling score, Ribeye area and fat thickness. The units of measure are in carcass trait format and analyzed on an age-constant basis.

Carcass Weight EPD (CW), expressed in pounds is a predictor of the differences in hot carcass weight of a sire’s progeny compared to progeny of other sires.

Marbling EPD (Marb), expressed as a fraction of the difference in USDA marbling score of a sire’s progeny compared to progeny of other sires.

Ribeye Area EPD (RE), expressed in square inches, is a predictor of the difference in ribeye area of a sire’s progeny compared to progeny of other sires.

Fat Thickness EPD (Fat), expressed in inches, is a predictor of the differences in external fat thickness at the 12th rib (as measured between the 12th and 13th ribs) of a sire’s progeny compared to progeny of other sires.

\$VALUE INDEXES

\$Value indexes, are multi-trait selection indexes to assist beef producers by adding simplicity to genetic selection decisions. \$Values are reported in dollars per head, where a higher value is more favorable. The \$Value is an estimate of how future progeny of each sire are expected to perform, on average, compared to progeny of other sires in the database if the sires were randomly mated to cows and if calves were exposed to the same environment.

Maternal Weaned Calf Value (\$M), expressed in dollars per head, predicts profitability differences from conception to weaning with the underlying breeding objective assuming that individuals retain their own replacement females within herd and sell the rest of the cull female and all male progeny as feeder calves. The model assumes commercial producers will replace 25% of their breeding females in the first generation and 20% of their breeding females in each subsequent generation. Traits included are as follows: calving ease direct, calving ease maternal, weaning weight, milk, heifer pregnancy, docility, mature cow weight, claw set and foot angle.

Weaned Calf Value (\$W), an index value expressed in dollars per head, is the expected average difference in future progeny performance for pre-weaning merit. \$W includes both revenue and cost adjustments associated with differences in birth weight, weaning direct growth, maternal milk, and mature cow size.

Feedlot Value (\$F), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires.

Grid Value (\$G), an index value expressed in dollars per head, is the expected average difference in future progeny performance for carcass grid merit compared to progeny of other sires.

Beef Value (\$B), an index value expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning and carcass value compared to progeny of other sires.

Combined Value (\$C), expressed in dollars per head, is an index which includes all traits that make up both Maternal Weaned Calf Value (\$M) and Beef Value (\$B) with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid. EPDs directly influencing a combined index are: CED, CEM, WW, YW, Milk, HP, DOC, MW, Angle, Claw, DMI, Marb, CW, RE and Fat.

ABOVE AVERAGE GOALS REQUIRE TARGETED BULLS

Aim High

The Targeting the Brand™ logo highlights registered Angus bulls with greater genetic potential to produce calves that meet the most challenging specifications of the *Certified Angus Beef*® brand.

Minimum Genetic Requirements

Marbling EPD (Marb)	+0.65
Dollar Grid Carcass Index (\$G)	+55.0

Only 1 in 4 non-parent Angus bulls qualify.

A home raised Jet Black daughter that is loaded with performance on paper and on the hoof. From an EPD profile this brood cow balances up nicely on paper and will flat impress you in person. She possesses a freaky front end with a huge middle and powerful hind leg and hip. She has done everything you could ask of a female. She has bred on time for the first three calf crops and maintains an easy fleshing brood cow appearance. She sells due 9/22/24 to Williams Jonesboro.

Your partner for ranch loans.

Loans tailored to fit your needs

At Capital Farm Credit, we believe in the Texas rancher. We work hard to earn your trust and keep your business. Whether you're looking to finance rangeland or improve your operation, our team of experts is here to help you grow. We even have special programs for beginning farmers, ranchers and veterans. And since 2006, our patronage dividend program has returned more than \$1.8 million to members in cash and allocated equities.

Together we're better.
Partnership that really pays.

FerAppease[®]
Maternal Bovine Appeasing Substance

**STRESS IS KILLING
YOUR CALVES.
BLOCK THE STRESS.
PROTECT YOUR CALVES.**

**Receive your Cattle
with FerAppease[®].**

**Recent Texas A&M study finds that FerAppeased calves
had more than a 70% reduction in overall mortality.**

EXPERIMENTAL DESIGN

120 Intact 4-weight Angus-Influenced steers from MS auction yard
Transported for 12 h to College Station, TX
Rested for 24 h | Initial processing on day 0

Day 0:

- Vaccines, dewormer, implant, metaphylaxis, castration
- Assigned to receive FerAppease or control (n = 60/each)
- Distributed in drylot pens with 12 steers of treatment

Day 14 and on:

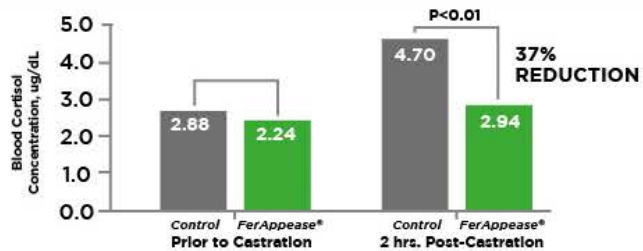

- Vaccine + FerAppease booster on day 14
- BW and sampling on days 0, 14, 28, 42, and 60
- Feed intake and incidence of BRD monitored daily

Receiving Cattle with FerAppease[®]

Dosage Rate: Apply a Total Dose of 10cc. 5cc on the muzzle + 5cc behind the poll.

**FerAppease[®] Reduced
Blood Cortisol Levels.**

Cortisol put calves into fight or flight mode. By reducing cortisol, FerAppease mitigates the calf's stress from castration and arrival.

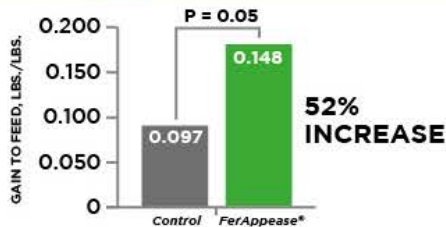

FerAppease[®] Reduced Mortality to BRD

Cortisol mobilizes energy to fight an immediate threat. This action deprives the calf's immune system of energy and weakens its ability to fight off disease, increasing mortalities.

Through the reduction of cortisol, FerAppease[®] keeps energy in the immune system. Strong, energy-rich immune systems drive reduced mortalities.

FerAppease[®] Increased Feed Efficiency & Total Gain, lbs.

MORE CALVES + MORE POUNDS = MORE PROFIT.
Bottom-Line: FerAppease Keeps your Calves Alive.
Healthier Calves means Healthier Pockets.

Dr. Reinaldo Fernandez Cooke
Texas A&M University

**Begin treating your calves
today with FerAppease[®].**
